

I am writing in favor of the NJ "Do Not Call" (DNC) legislation. This law is more stringent than the Federal "Do Not Call" program in that it does not include an 18 month exemption. Before signing onto the NJ DNC list, I was receiving nearly 5 unsolicited sales calls per day. These calls occurred during dinner time, on Sundays and disrupted the quality of my home and family life. I would like to see the New Jersey DNC law remain intact without any Federal interference that would weaken it and make my home and privacy available to unwanted intrusion.
